

Needs and wants

Identify which things are needs and which things are wants.

Needs are things that we rely on for basic human survival, like shelter and water. Wants are things that make our lives better or more enjoyable, but we don't necessarily need them to survive, like video games or a skateboard.

Sometimes it can be hard to tell the difference between a need and a want. Circle 'need' or 'want' under each word and if you get stuck, ask a grown-up to help you out.
