

DECISION MATRIX

Asking questions can help you make purchasing decisions.

Before you spend money on something, use this matrix to ask yourself these 4 questions:

1. Does the cost of this item fit within my budget?
2. Do I really need this item?
3. Could I borrow it from someone else instead of buying it?
4. Would it cost less if I bought it from a different shop or waited for a sale?

What do you want to buy? _____
